

LETTER OF RECOMMENDATION

N°20230701

Luis Rodolfo Rodríguez Bejarano

Doctor of Science with a specialization in Energy Engineering

Director of the Professional School of Mechanical Engineering at the National University of San Agustín

Dear Admissions Committee,

I am writing to highly recommend Manuel Caipo Ccoa for your consideration in the Master's program in Robotics, Cognition, and Intelligence at your prestigious institution. As an evaluator of his undergraduate thesis at the National University of San Agustín in Arequipa, I have had the opportunity to work closely with Manuel and I am impressed by his academic ability, experience in the field of automation, and outstanding academic performance.

Manuel ranked first in the Professional School of Mechanical Engineering, achieving an impressive grade of 15.2 out of 20. This is an exceptionally high score and difficult to attain, which demonstrates his dedication, effort, and innate talent for study and learning. His commitment to academic excellence is evident and sets him apart as an outstanding student in his field.

In addition to his outstanding academic performance, Manuel also served as a teaching assistant for courses in Power Generation Plants, Mechanisms, and Machine Dynamics during his final year of studies. This experience as a teaching assistant demonstrates his ability to convey knowledge clearly and effectively, as well as his capacity to collaborate and support other students in their learning process.

During the development of his thesis, titled "Design of a 350TN/H Copper Concentrate Feeding Conveyor Belt with Hydraulic Tensioning Automation and Receiving Hopper," Manuel demonstrated extensive knowledge in the design and implementation of automated systems. His deep understanding of automation principles, combined with his ability to apply advanced engineering techniques, was essential to the success of his research.

As the Director of the Professional School of Mechanical Engineering, I can assure you that Manuel is an exceptional student with great potential. His dedication and commitment to academic excellence, as well as his experience in the field of automation and data science, make him stand out among his peers. I am convinced that his participation in the Master's program in Robotics, Cognition, and Intelligence will be highly beneficial both for him and for the institution.

I sincerely recommend Manuel Caipo Ccoa for admission to the Master's program in Robotics, Cognition, and Intelligence. I am confident that his experience and dedication will contribute significantly to the academic environment and the success of the program.

If you need further information or additional references about Manuel, please do not hesitate to contact me. I am available to provide any additional information that may be relevant in the evaluation process.

Thank you for your attention and consideration.

Sincerely,

Luis Rodolfo Rodríguez Bejarano

Director of the Professional School of Mechanical Engineering
National University of San Agustín de Arequipa
